## NIPSCO ANNOUNCES DECREASE IN GAS COST FOR APRIL

**MERRILLVILLE, Ind.** – Northern Indiana Public Service Company announced today that the Gas Cost Adjustment for April 2009 decreased compared to last month. This month's decrease is attributed to an expected decrease in wholesale natural gas prices as compared to the previous month, and the depletion of underground gas storage supplies, which were filled during the spring and summer of 2008 when gas costs reached an all-time high.

NIPSCO residential customers will see a decrease in natural gas costs of 42.50 percent when compared to March 2009. The Indiana Utility Regulatory Commission approved the adjustment subject to refund.

A typical NIPSCO residential customer using 100 therms of natural gas should expect a decrease of approximately \$45.51 from last month's statement in their April billing, although total bill amounts will vary as a result of actual consumption.

For natural gas customers who want consistent monthly payments, NIPSCO's BudgetPlan allows customers to spread gas costs over an entire year, and the Depend-a-Bill program provides a fixed monthly bill with no annual true-up. NIPSCO's Price Protection Service option allows customers to fix or cap their per unit cost of natural gas. Also, the NIPSCO Choice program gives customers an opportunity to choose an alternative natural gas supplier.

The GCA is an allowed monthly adjustment to the gas supply charge portion of NIPSCO's natural gas service rates. The adjustment, which must be approved by the IURC, reflects the fluctuations in the price NIPSCO pays in the marketplace for natural gas. The company passes on the costs of the natural gas directly to
